

## **Lasara ISD T-STEM Admission Policy and Recruitment Plan**

Lasara ISD T-STEM Program has an open enrollment admissions policy and adheres to the District's Nondiscrimination Policy. The campus also adheres to the Texas STEM blueprint, which requires that enrollment decisions not be based on state assessment scores, discipline history, teacher recommendation, parent or student essays, minimum grade point average (GPA), or other criteria that create barriers for student enrollment. To maintain T-STEM designation status, we shall identify, recruit, and enroll subpopulations of at-risk students (as defined by the Public Education Information Management System). T-STEM shall identify, recruit, and enroll subpopulations that are historically underrepresented in college courses (e.g., first-generation college goers, students of low socioeconomic status, and students who identify as African American, Hispanic, or Native American). If the T-STEM program has more applicants than available space for admissions, a lottery system will be used to fill the available spots.
